

Mechanical Jack 3 Ton

The Mechanical Jack 3 Ton is light in weight, simple in structure and convenient to carry. The Mechanical Jack 3 Ton is suitable for car maintenance and requires a small lifting range and is convenient to move. The Mechanical Jack 3 Ton is a small and light lifting equipment that uses a rigid lifting piece as a working device to lift heavy objects in a small stroke through the top bracket.

1. Mechanical Jack 3 Ton

Mechanical Jack 3 Ton is an important hydraulic component that is widely used in heavy vehicles or mobile equipment to support the weight of the equipment and adjust the level of the equipment. The Mechanical Jack 3 Ton is mainly used in factories, mines, transportation and other departments as vehicle repair and other lifting and supporting tasks. The Mechanical Jack 3 Ton is a light and small lifting device that uses a rigid lifting piece as a working device to lift heavy objects in a small stroke through the top bracket.

2. Specification

model	packing	colour	Minimum height	Maximum height	Package specification
3T	Carton packaging	black	9cm	55cm	88*46*20

3. Feature And Application

The Mechanical Jack 3 Ton is suitable for the auto repair industry. The Mechanical Jack 3 Ton is used to repair tires, change the oil, and support the car during maintenance. The use of the Mechanical Jack 3 Ton supports a certain height of space for the workers. The Mechanical Jack 3 Ton facilitates the smooth work of the workers and ensures the safety during the work process.

Safety

4. Details

The thickness of the steel plate of the Mechanical Jack 3 Ton is thickened, and it has been tested for 1.25 times the load-bearing capacity. The high-carbon steel high-temperature quenching process is used, and the flexibility and derivative performance are stronger and safety is ensured.

The Mechanical Jack 3 Ton is more sturdy, does not leak oil, has stronger stability, increases load-bearing capacity and safety, and is more flexible in lifting

The Mechanical Jack 3 Ton has a 360-degree rotatable rotor and a rubber mopping pad, which can lift and fall stably without slipping off, and is safe and stable.

5. Product Qualification

Shanghai Yiyong Crane Machinery Company is the hoist manufacturer Institute certified. This means we are one of the industry's leading suppliers of hoist equipment. We are reliable and deliver exceptional value.

Our Mechanical Jack 3 Ton provide genuine guarantee. During the quality guarantee period, Mechanical Jack 3 Ton parts are provided free of charge, and video repair services are provided.

6. Deliver,Shipping And Serving

Our Mechanical Jack 3 Ton are packaged in cartons. Based on our experience of many orders, the carton packaging can meet the requirements of the transportation process and protect the goods from arriving safely. If there are quality problems in the subsequent use, we will provide you with parts and installation instructions for free

7. FAQ

www.hugoforklift.com

What specifications do you have?
